Dallas Researches

In the course of getting out my copy of the report of the Texas Court of Inquiry to comment on it in my present writing I noticed this letter to thanks to Dean Storey. It reminds me that I had arranged, not being in Texas myself and lacking the means to get there and stay there aften, for Mary Ferrell to go over Dean Stprey's records. I had made the same arrangement with Henry Wade. He did have sone records of which we should have had copies, particularly about Ruby. Mary did not review either file. I intend this to be confidential because there is no basis for ~~xxxx~~criticizing her for not doing so. She then had a full-time job with a major Dallas lawfirm and it may well have been a practical impossibility for her to have gone over either set of files. it is, however, opportunities missed.
